

# DELIVERY GUIDELINES OPEN DIGITAL FILES APPENDIX 2

Here the inner sides are sealed against one another and then folded. The seal medium (always one-sided) is on the inside of the foil. Pay attention that the bar code does not lie under the folded side. Preferably no text either in the seal edges

Here the inside of the foil is sealed to the outside of the foil. The seal medium (always two-sided) is therefore on both sides of the foil. Pay attention that that there is no printing on the overlapping part of the foil. Preferably no text either in the seal edges. In addition, the strips that are sealed may not be lacquered.
